October 3, 2016

As President of the Kansas City, Kansas Board of Education, it is my extreme pleasure to enthusiastically support the 2016 Zero-Tax Increase Bond Initiative for the Kansas City, Kansas School District No. 500. This bond for \$235,000,000.00, will allow all of our schools to experience some needed physical improvements that will directly impact the environment of the 22,000 students we serve.

Many of the school buildings in our district are over 50 years old. I am very excited that safety and security enhancements including new secured entrances will help to protect our students and staff. Several schools will finally receive kitchen construction and upgrades. Several elementary schools will receive playgrounds. I am extremely excited for the new High School College and Career Academy spaces and also for the Middle School career exploration spaces.

All Schools, All Kids will be touched with this Zero Tax Increase Bond. Our students deserve quality education in quality buildings just as other students across our state and nation. Please join me in this effort to provide improved quality educational spaces for our students and staff.

Respectfully submitted,

A handwritten signature in black ink that reads "Dr. Evelyn Hill". The signature is written in a cursive, flowing style.

Dr. Evelyn Hill  
President, Board of Education
