

Hello,

My name is Monica Crowe. I have lived and worked in the KCKS area for 27 years. I am a past president of the KCK Council of PTA and still work with a lot of the schools in USD 500. I have 2 daughters, one is a Sumner graduate and the other will graduate this spring from F.L.Schlagle High School. I am also a community volunteer. I support the Zero Tax Increase School Bond that will be on the ballot on November 8th.

Any way you look at it, it is a win/win for our Schools, Students and Community. Every school will be touched in some way. That means every student will benefit. Our community will enjoy an economic impact from the projects, new jobs and workers spending money in our businesses.

If we have better schools, we produce better students! They will become the workforce of the future as well as community members.

Vote Yes on the School Bond on November 8th!
