Wyandotte County Early Learning Collaborative Matrix of Services

<p align="center">Connections</p> <p>Connections is an entry point for families interested in learning more about the early childhood programs and supportive resources available in the community. All families living in Wyandotte County who are pregnant or have a child under five years of age can participate in the one visit program. Connections is a great way for parents to find the most appropriate services in the community based on their family's unique situation. Connections works with families to identify their needs and wants which may include completing a developmental screening with their children to see if they are progressing through the normal stages of growth and development. Families are then connected to the most appropriate programs and services. Connections is a creative approach based on the idea that early identification and timely access to services leads to healthy development and children entering school ready to succeed.</p> <p>Contact: (913) 321-9999, www.projecteagle.org/Connections_History.aspx</p>	<p align="center">KAIMH - Kansas Association for Infant & Early Childhood Mental Health</p> <p>Providing support for the growth and development of early relationships between young children and their caregivers.</p> <ul style="list-style-type: none"> • Serving children birth to age 5 • Social-emotional assessment & Planning • Problem-solving and strength building partnership with parent, teacher, caregiver • Individualized home, daycare, and/or preschool visits <p>Contact: (913) 742-4217, www.kaimh.org</p>	<p align="center">Wyandotte County Infant Toddler Services</p> <p>Wyandotte County Infant Toddler Services identifies and serves children with special needs in their natural environment.</p> <ul style="list-style-type: none"> • Evaluation of all areas of development • Individualized Family Service Plan • Home or child care visits • Birth to 36 months <p>Contact: (913) 287-8851, www.childrenstlc.org/WyCoITS.</p>
