Employee Recognition

Kansas City, Kansas Public Schools

The heart and soul of Kansas City, Kansas Public Schools can be found in the people who work in the system: the teachers, support staff, administrators and central office staff. Every day, our people give of themselves in extraordinary ways, in order to help all students reach higher levels of success, and to close the achievement gap between groups of students.

The Board of Education of the Kansas City, Kansas Public Schools deeply appreciates all those who work on behalf of students in KCK, and gives special recognition to those individuals whose work goes "above and beyond" the call of duty. To do so, the Board seeks nominations of outstanding individuals whose work and service deserve special attention. Each month during the school year, two individuals will be chosen as "Employee of the Month", and honored at a Board of Education meeting.

Please use the nomination form to share with the Board information about those individuals who deserve this honor. Please complete the form and send to:
