

Student COVID-19 Flowchart

If Student Is Exposed to COVID-19 at School:

If Student Is Exposed to COVID-19 Outside of School:

Reporting Guidelines for a Student Exposed Outside of School

Parent Responsibilities

1. See Flowchart for guidance based on vaccination status.
2. Report your child's exposure to your school nurse or principal.
3. Speak with a school nurse for guidance. Return to school will be cleared by the nurse provided all criteria have been met.
4. Provide proof of vaccination to the nurse, if applicable.
5. Complete a 5-day quarantine from the last date of exposure or from the day of the test.
6. If at any time following exposure, a student experiences new symptoms of illness, the students should remain at home and complete a PCR COVID-19 test, and should not attend school or school activities until they receive their test results.
7. Absences related to COVID will be excused after speaking with the school nurse.
8. Students who are exposed to a positive household family member must quarantine for a minimum of 5 days from the last date of exposure.
9. Student may access assignments and class materials through Canvas. Contact your child's school if you have questions about accessing assignments.

Principal Responsibilities

1. Work with staff to ensure that student can access assignments and materials through Canvas.
2. Ensure that teacher-student contact is made during the period of the student's absence.

Additional Responsibilities:

1. The nurse will add a health flag in Infinite Campus. Absences are excused in Infinite Campus by attendance secretary for the duration of the quarantine or isolation.

Reporting Guidelines for a Student Exposed At School

School Responsibilities

1. As soon as possible after the school is notified of a positive COVID-19 diagnosis, the school nurse and the Contact Tracing Team will work to identify any close contacts who may have been exposed.
2. Unvaccinated students and students who were not following mitigation procedures who are identified as close contacts will be instructed to quarantine. Close contact exposures will be reviewed on a case-by-case basis for all quarantine recommendations.
3. Return to school will be cleared by the nurse. See Flowchart.

Parent Responsibilities

1. Provide proof of vaccination to the nurse, if applicable.
2. If at any time following exposure, a student experiences new symptoms of illness, the students should remain at home and complete a PCR COVID-19 test, and should not attend school or school activities until they receive their test results.
3. Absences due to COVID will be excused after speaking with the school nurse.
4. Complete a 5-day quarantine from the last date of exposure or last date of test.
5. Speak with a school nurse for guidance. Return to school will be cleared by the nurse provided all criteria have been met.
6. Students who are exposed to a positive household family member must quarantine for a minimum of 5 days from the last date of exposure.
7. Students may access assignments and class materials through Canvas. Contact your child's school if you have questions about accessing assignments.

Principal Responsibilities

1. Work with staff to ensure that student can access assignments and materials through Canvas.
2. Ensure that teacher-student contact is made during the period of the student's absence.
3. Once all close contacts have been notified of their exposure, the principal will complete the appropriate letter template(s) and email them to their direct supervisor and the Health Services Coordinator for approval.

Additional Responsibilities:

1. The nurse will add a health flag in Infinite Campus. Absences are excused in Infinite Campus by attendance secretary for the duration of the quarantine or isolation.
2. If a family cannot be reached or if notifying a family cannot be done within a 24-48 hour period (such as a weekend or holiday) an email or electronic communication may be used for timely notification.
